1. Purpose and Scope

The purpose of this document is to certify compliance to various ROHS regulations of certain types of electronic equipment manufactured or purchased by Amphenol TCS for inclusion in products. This document covers all Amphenol TCS part numbers listed in Table 1 below. This document covers these products as they are manufactured in all Amphenol TCS facilities.

2. Referenced Documents

The following documents may be referenced in this document:

- 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive)
- 2005/618/EC: Commission Decision of 18 August 2005 amending Directive 2002/95/EC of the European Parliament and of the Council for the purpose of establishing the maximum concentration values for certain hazardous substances in electrical and electronic equipment
- 2005/747/EC: Commission Decision of 21 October 2005 amending for the purposes of adapting to technical progress the Annex to Directive 2002/95/EC of the European Parliament and of the Council on the restriction of the use of certain hazardous substances in electrical and electronic equipment
- China RoHS - Management Methods for Control of Pollution Caused by Electronic Information Products, Ministry of Information Industry, February 28, 2006, Order No. 39
- China RoHS EIP List - Electronic Information Products Classification and Explanations
- SJ/T11364-2006 - Marking for Control of Pollution Caused by Electronic Information Products
- SJ/T11363-2006 - Requirements for Concentration Limits for Certain Hazardous Substances in Electronic Information Products
- SJ/T11365-2006 - Testing Methods for Hazardous Substances in Electronic Information Products
- GB 18455-2001 - Packaging Recycling Mark
- Korea RoHS – Act for Resource Recycling of Electrical and Electronic Equipment and Vehicles

Table 2. RoHS Compliance Status Code Explanation

Status Code	RoHS Compliance Status Code Explanation
EU-A	This part is in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive). Certain homogeneous materials used in this part do contain RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3. RoHS Compliance requires the use of the exemptions shown in the column "Exemptions Used", and explained in Table 4.
EU-B	This part is in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive). The homogeneous materials used in this part do not contain RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3. No exemptions are required for EU RoHS Compliance.
EU-C	This part is NOT in compliance with Directive 2002/95/EC of the European Parliament and of the Council of 27 January 2003 on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS Directive). Certain homogeneous materials used in this part do contain RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3, and there are no known exemptions to the usage of these substances.
CH-A	This part is in compliance with China RoHS on the restriction of the use of certain hazardous substances in Electronic Information Products. The homogeneous materials used in this part do not contain RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3.
CH-B (X)	This part is NOT in compliance with China RoHS on the restriction of the use of certain hazardous substances in Electronic Information Products. Certain homogeneous materials used in this part do contain China RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3, and there are no known exemptions to the usage of these substances. However, there are no bans on the use of this product. The only requirement at this time is that the hazardous substances (designated by "X" in parentheses) in this part must be declared in the Hazardous Substances Table for the final Product.
KOR-A	This part is in compliance with Korea RoHS on the restriction of the use of certain hazardous substances in Electrical and Electronic Equipment. The homogeneous materials used in this part do not contain RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3.
KOR-B	This part is NOT in compliance with China RoHS on the restriction of the use of certain hazardous substances in Electrical and Electronic Equipment. Certain homogeneous materials used in this part do contain China RoHS Restricted Substances above the Maximum Concentration Values shown in Table 3, and there are no known exemptions to the usage of these substances.

Table 3. Maximum Concentration Values (MCVs) from 2005/618/EC and SJ/T11363-2006

RoHS Restricted Substance	Allowable Limit
Cadmium and its compounds*	100 ppm (0.01 weight %)
Mercury and its compounds	1000 ppm (0.1 weight %)
Hexavalent chromium and its compounds	1000 ppm (0.1 weight %)
Lead and its compounds**	1000 ppm (0.1 weight %)
Polybrominated biphenyls (PBB)	1000 ppm (0.1 weight %)
Polybrominated diphenyl ethers (PBDE)	1000 ppm (0.1 weight %)

Table 4. Exemptions Used to Meet RoHS Compliance

Exemption No.	Exemption Description
EU-5	Lead in glass of cathode ray tubes, electronic components and fluorescent tubes.
EU-6	Lead as alloying element in steel containing up to 0.35% lead by weight, aluminum containing up to 0.4% lead by weight, and as a copper alloy containing up to 4% lead by weight from 2002/95/EC.
EU-7	Lead in solders for servers, storage and storage array systems, network infrastructure equipment for switching, signaling, transmission as well as network management for telecommunications from 2002/95/EC. The use of this exemption must be verified by the customer. Using devices containing lead in equipment other than that listed is not covered by this exemption.
EU-11	Lead used in compliant pin connector systems from 2005/747/EC.
